(Courses based on New National Education Policy) Please note....

Under the Government of India approved National Education Policy (NEP), 3/4-year (6/8 semesters) Honors courses of Under Graduate level have been started by the University. Its objective is to catalyze quality academic research while providing equitable access to holistic and multidisciplinary education to the students. In NEP-2020 -

- Multiple entry and exit system has been implemented. You can understand it like - in today's system, if you are not able to study further after the first or second year in a three year (or six semesters) course, then you have no option, but in multiple entry and exit system, you will be awarded certificate after one year, diploma after two years and degree after three-four years. This will be of great benefit to those students whose studies are left out in the middle for some reasons.

There will be a four-year degree programme for students who want to do research. Those who want to go into any job, they will have to do only three years degree programme.
